## Opjective

---

Seeking a challenging and dynamic full-time position, leveraging my corporate experience, technical skills, and passion for innovation to contribute to company projects and initiatives while advancing my career in the healthcare technology industry.

## Education

---

**Bachelor's degree in Biomedical** 2020 – 01/2025  
*Mansoura University*  
Very Good (GPA 3.2/4).

## Training experience

---

**Siemens** 09/2024  
Mansoura  
During the training period, I learned about common malfunctions of MRI machines, CT scanners, cardiac catheterization devices, and various laboratory equipment. I also gained knowledge of how these devices operate and how to extract results from diagnostic tests.

**True Medical (mindray)** 07/2024 – 08/2024  
Sales Mansoura  
During the sales training, I gained practical skills in effective communication with customers and understanding their needs. I also learned negotiation and persuasion techniques that helped me achieve sales goals and strengthen long-term relationships with clients.

**Dar Al Fouad Hospital** 01/2024 – 02/2024  
Cairo  
Training includes regular maintenance, including CT machines, Infusion machines, and maintenance of dialysis machines.

<b>Children's Hospital</b> (60 Hours) Hospitals The training included the role of a medical engineer in the hospital and clinical training.	08/2023 Mansoura
<b>BAHYA Foundation</b> (60 Hours) The training included a general introduction to the role of BME in the hospital, chemotherapy, radiotherapy, nuclear therapy, oncology, physical therapy, laboratory, pathology, maintenance, service and soft skills.	07/2023 Cairo
<b>BAHYA Foundation</b> (6 Hours) A 6-hour workshop at Bahia Hospital to explain an introduction to medical engineering.	01/2023 Cairo
